Summary of Qualifications:

- Proficient in APIs skills.
- Excellent in MVC pattern, GitHub, and Heroku.
- Proficient in Node.js and Express.js.
- Great MySQL and Sequelize skills.
- Excellent in Front end and Back end in JavaScript.
- Creative and passionate about the industry.
- Great leadership skills
- Great problem-solving skills
- Proficient in analytical skills

Projects:

Coding bootcamp UCLA – Extension (First project)

March 2023 – April 2023 – Link: <https://vlad1slav86.github.io/Pear-Music/>

- An app built with JavaScript, HTML, and CSS that allows users to search for music based on categories.
- Two server-side APIs were used to look for music genres and photos associated with results.
- My role was to work on the APIs and protect them safely.
- Teamwork is key when it comes to building an APP, and learning is a part of success in this industry.

Coding bootcamp UCLA – Extension (Second project)

May 2023 – June 2023 – Link: <https://eattolive-ed92f3891fdb.herokuapp.com/>

- A full-stack development app built with JavaScript that allows users to search for restaurants based on Zip code and City.
- Used RESTful API and other technologies such as Node.js and Express.js.
- Implemented a MVC pattern.
- Used MySQL and the Sequelize ORM for the database.
- Had both GET and POST routes for retrieving and adding new data.
- Deployed using Heroku.
- Materialized CSS was used to decorate the website.
- Encoded API pictures from google to protect API keys.
- Led the project to assign tasks to team members based on strengths and weaknesses.

Other Experience:

Lee Sandwiches – Team lead/Cashier (2015 – 2019)

- Communicated with customers to take orders.
- Worked with team members to solve any conflicts.
- Assigned schedule to each team member.
- Handled cash register at the end of day.

E-Commerce – Etsy self-employed (2020 – 2023)

- Listed products (plushies gifts) on website.
- Worked with suppliers to get products shipped on time.
- Marketing products using social media.
- Prepared monthly financial statements.
- Packed/shipped products based on orders.
